# Sandy Bramlett to Appear On 'Up With People' Show

Sandy Bramlett, North High graduate of 1965 and student at El Camino College in 1966, will appear on NBC Aug. 23 at 10 p.m. in a one hour special presentation of "Up With People."

At North High, Sandy was a member of the Saxon Band for three years where she played flute under the direction of Robert L. Jones. In the telecast, she will play flute as well as sing in the chorus of 150 youths from all over the world.

Early in 1967, Sandy was invited by the government of Panama for a 26-day tour performing at 31 school and college assemblies in thirteen cities before audiences totaling 110,000. They visited eleven interior towns and were given hospitality in 623 homes.

In April of this year, Sandy and the cast were invited to Italy where they toured the country and performed for two months before returning to the

United States. Major cities in which they performed were Rome, Naples, Venice and Milan.

After a brief stop in New York, the cast accepted an invitation from President Mobutu to come to the Congo for a three week tour of that country, but Sandy declined this trip in order to return home to Torrance for her brother's graduation. Regardless of what countries they visit, they learn the songs for a two-hour show in the language of that country.

Early in July of this year, she and her parents, Mr. and Mrs. James E. Bramlett and her brother, Jim, of 18301 Patronella, drove to New Rochelle, New York so she could rejoin the cast upon their return from the Congo. Jim has also joined the traveling cast of "Up With People" and as soon as the filming of the telecast was completed the cast left for Canada where they are now appearing. Jim was graduated from North High

During the past year the three national casts traveled 103,000 miles with performances in 32 states, giving 399 full performances including 64 universities and colleges, 20 for the military and 16 at state conventions and expositions, including Expo '67. 423 high school performances were given in more than 20 U. S. cities.

"We're out to rebuild the world into a place where all people can get along," Miss Bramlett said. "I feel that our generation has the ability, strength and power to take on the responsibilities and leadership of tomorrow. 'Up With People' is giving us that certain push we need."
